- 

#### Project 1 – Come Thru

Duration: Feb 2023 – Till Date

#### Roles and Responsibilities:

- Developed scalable full-stack applications using NextJS, ReactJS, and NodeJS.
- Built microservices and RESTful APIs to enhance system performance.
- Integrated Stripe for seamless payment processing.
- **Tech Stack:** ReactJS, NodeJS, MongoDB

#### Project 2 – Mind Talk

Duration: Sept 2023 – Jan 2024

#### Roles and Responsibilities:

- Developed scalable full-stack applications using NextJS, ReactJS, and NodeJS.
- Built microservices and RESTful APIs to enhance system performance.
- Integrated Stripe for seamless payment processing.

- Worked on optimizing application performance and database queries.
- **Tech Stack:** ReactJS, NodeJS, MongoDB
- **Project Link 1:** <https://mindtalks.in> ,
- **Project Link 2:** <https://partner.mindtalks.in>

### Project 3 - Ambaram

**Duration:** Jan 2022 – Sept 2023

#### Roles and Responsibilities:

- A secure, cloud-based collaboration platform designed for the fashion industry.
- Enables designers and agencies to seamlessly share data and collaborate in real-time.
- Enhances operational efficiency and fosters creativity by digitizing traditional design studio processes.
- Provides enterprise-grade security, accessibility, and workflow optimization tools.
- **Tech Stack:** ReactJS, NodeJS, MongoDB
- **Project Link 1:** <https://www.ambaram.ai/>
- **Project Link 2:** <https://app.ambaram.ai/>

### Project 4 - Mumbai Duty-Free

**Duration:** Feb2022–Dec 2022

#### Roles and responsibilities:

- Developed an online duty-free shopping platform for Mumbai International Airport (CSMIA), offering a seamless pre-order and pickup experience.
- Integrated multiple product categories, including luxury beauty, electronics, liquor, and confectionery, ensuring a smooth shopping experience for international travelers.
- Implemented a secure payment gateway and real-time order tracking system to enhance user convenience.
- Designed an intuitive user interface for browsing exclusive brands and offers while ensuring mobile responsiveness.
- **Tech Stack:** ReactJS, NodeJS, MongoDB, AWS
- **Project Link:** <https://www.adanione.com/csmia-mumbai-airport/duty-free>

### Project 5 - Transportation

**Duration:** Sep 2021 – Feb 2022

#### Roles and Responsibilities:

- A real-time transport service that allows users to request and track goods transportation.
- Drivers can accept or decline transportation requests based on availability.
- Ensures seamless communication between users and drivers with live tracking features.
- Enhances efficiency in logistics management and provides transparency in service operations.
- **Tech Stack:** ReactJS
- **Project Link:** <https://transportalotodo.com/>

### Project 6 - Tour And Travel

**Duration:** Feb 2021 – Sep 2021

#### Roles and responsibilities:

##### Transportation Service Platform

- A tourism and hotel booking platform showcasing accommodations with detailed information.
- Allows users to explore hotel locations, amenities, pricing, and availability for hassle-free booking.
- Provides a seamless and user-friendly interface for an enhanced travel experience.
- Ensures a smooth booking process with real-time availability updates.

- **Tech Stack:** ReactJS, NodeJS, MongoDB
- **Project Link:** <http://visitmu.codestarc.com/#>

## Project 7 - Spendable

**Duration:** April2020–Feb2021

### Roles and responsibilities:

#### Support Platform for Individuals with Disabilities

- Designed and developed a platform that empowers individuals with disabilities to hire trusted guardians.
